

Why is helping kids identify their passions so important?

Most people never take the time to figure out what it is they enjoy and the skills at which they excel. Kids often worry about being accepted for who they are, and as they go through school they are faced with many opportunities and decisions to make.

When students are passionate about what they're doing, they become centered, **their academic achievement soars** to new levels and the 'fire within' begins to burn. As they learn how to make life **exciting and purposeful**, they begin to truly appreciate who they already are, and start to envision themselves **creating their own best life**.

As kids grow older they have many choices to make that will affect their futures, and that's why we developed this program—to **assist kids in following their path to a fulfilling life!!**

Please join us on our mission by taking this program to kids and teens in your local community.

MAKE A DIFFERENCE

Help kids and teens identify and live their passions!

Teachers and Adults:

BECOME A PASSION TEST 4 KIDS & TEENS FACILITATOR

In 2005, Harris Interactive conducted a study which showed that only 20% of American workers are passionate about what they do. That means 80% are unhappy, unsatisfied, and unfulfilled! Imagine what it would mean to our society if these statistics were reversed. As kids grow older they have many choices to make that will affect their futures, and that's why we developed this program—to turn those Passion statistics upside down and assist kids in following their path to a fulfilling life!

Our kids need dedicated people like you to set them up for success in life.

As a Certified Passion Test 4 Kids & Teens Facilitator you can teach Passion Test workshops to kids in your community—or anywhere in the world. You will be licensed to use the Passion Test brand, processes, and materials; and 100% of the income that you generate is yours to keep—there are no franchise fees.

In the 3-day, live Certification Course you will

- ★ Learn how to facilitate The Passion Test workshop for kids in your community.
- ★ Develop techniques to support student empowerment.
- ★ Learn how to bring out the best in kids as they begin to make decisions about their future.
- ★ Role play in classroom and group scenarios.
- ★ Learn presentation skills when working with kids.
- ★ Understand legalities, professional standards and best practices when working with youth.
- ★ And have FUN!!!

Cost for the four-day program: \$1497

*Prerequisite: The Passion Test Certification Foundation Training.

Educators:

Bring The Passion Test 4 Kids & Teens™

to your school or youth group.

When students are passionate about what they're doing, they improve their lives; become emotionally, mentally, and physically centered; their academic achievement soars to new levels and the 'fire within' for learning begins to burn. When students connect with what makes life exciting and purposeful, they begin to truly appreciate who they already are and start to envision themselves creating their own best life.

During our presentation you can expect your students to

- ★ Become really clear about what is important and what they desire in life.
- ★ Create a plan to start living the life of their passions, right away.
- ★ Use passion to create a bully-free zone.
- ★ Discover their unique gifts and talents.
- ★ Learn how to overcome negative thoughts that may be holding them back.
- ★ Increase self-esteem, automatically! Be strong and confident in themselves.
- ★ Create friendships and harmonious relationships.
- ★ Above all have FUN!!!
